

DESCRIPTION

The main load bearing posts are made of square, coreless, vacuum impregnated pine wood. They are double-grooved to prevent from extensive cracking. Each post is mounted on a steel, hot-dip galvanised anchor to protect wood from rotting. Security panels and roofs are made of HPL boards – an extremely durable high-pressure laminate resistant to weather conditions and UV radiation. Freshly coloured slides are made of polyester laminate. All railings and connectors are made of stainless steel. Characteristic, bevelled pole ends. Durability and long life is guaranteed.

INFORMATION

Number of users	11
Age range	3 - 14
Device dimensions [m]	6.38 x 3.65 x 5.36
Compliance with the norm	EN 1176
Spare parts	Available
